## **BAIL-IN ELIGIBILITY**

The Issuer is subject to the European Union recovery and resolution framework as set out in Regulation (EU) No 806/2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (**SRMR**) and Directive 2014/59/EU establishing a framework for the recovery and resolution of credit institutions and investment firms (**BRRD**). The BRRD was transposed into national German law by the German Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*, **SAG**).

The German Resolution Mechanism Act of 2 November 2015 introduced a new Sec. 46f (5) – (7) into the German Banking Act (*Kreditwesengesetz*, **KWG**), the effect of which was a change in the ranking of all new and existing senior unsecured and non-structured debt instruments issued by German banks to a new senior non-preferred ranking in between subordinated liabilities and preferred ordinary unsecured creditors, effectively dividing the ranking of senior unsecured liabilities of German banks into two sub-categories, i.e. senior preferred and senior non-preferred liabilities. With effect from 21 July 2018, Sec. 46f (5) – (7) KWG has been further amended. As a consequence, senior debt instruments issued since this date only fall within the category of senior non-preferred liabilities in case this is explicitly provided for in their terms.

The Securities, when issued, will constitute senior preferred debt instruments that are subject to bail-in or other resolution measures as further described below.

Senior preferred debt instruments rank *pari passu* with other unsecured and unsubordinated obligations of the Issuer, subject, however, to statutory priorities conferred to certain unsecured and unsubordinated obligations. In accordance with Sec. 46f (5) KWG, the obligations under the Securities rank in priority to those under senior non-preferred debt instruments of the Issuer within the meaning of Sec. 46f (6) sentence 1 KWG.

If the competent authority determines that the Issuer is failing or likely to fail and certain other conditions are met (as set forth in the SRMR, the SAG and other applicable rules and regulations), the competent resolution authority has the power to write down, including to write down to zero, claims for payment of the principal, interest or any other amount in respect of the Securities, to convert the Securities into ordinary shares or other instruments qualifying as common equity tier 1 capital (the write-down and conversion powers hereinafter the **Bail-in tool**), or to apply any other resolution measure including (but not limited to) a transfer of the Securities to another entity, a variation of the terms and conditions of the Securities (including, but not limited to, the variation of maturity of the Securities) or a cancellation of the Securities (the Bail-in tool and each of these other resolution measures hereinafter a **Resolution Measure**). The competent resolution authority may apply Resolution Measures individually or in any combination.

The competent resolution authority will have to exercise the Bail-in tool in a way that results in (i) common equity tier 1 instruments (such as ordinary shares of the Issuer) being written down first in proportion to the relevant losses, (ii) subsequently, the principal amount of other capital instruments (additional tier 1 instruments and tier 2 instruments) being written down on a permanent basis or converted into common equity tier 1 instruments in accordance with their order of priority, (iii) subsequently, the Issuer's unsecured and subordinated liabilities that are not additional tier 1 instruments or tier 2 instruments being written down on a permanent basis or converted into common equity tier 1 instruments in accordance with their order of priority, and (iv) finally, the Issuer's unsecured and unsubordinated liabilities (unless exempted by the SRMR or the SAG) being written down on a permanent basis or converted into common equity tier 1 instruments in accordance with their order of priority under Sec. 46f (5) – (9) KWG.

See further details for the relevant risk factors under "Risk Factors – 2. Risks Relating to the Regulatory Classification of Notes – Risks Arising from a Regulatory Bail-in and Other Resolution Measures" (on

pages 19 to 20 of the Securities Note).

## **ROC TAXATION**

*The following is a general description of the principal ROC tax consequences for investors receiving interest in respect of, or disposing of, the Securities and is of a general nature based on the Issuer's understanding of current law and practice. It does not purport to be comprehensive and does not constitute legal or tax advice.*

*This general description is based upon the law as in effect on the date hereof and that the Securities will be issued, offered, sold and re-sold, directly or indirectly, to professional institutional investors as defined under Paragraph 2, Article 4 of the Financial Consumer Protection Act of Taiwan only. This description is subject to change potentially with retroactive effect. Investors should appreciate that, as a result of changing law or practice, the tax consequences may be otherwise than as stated below. Investors should consult their professional advisers on the possible tax consequences of subscribing for, purchasing, holding or selling the Securities.*

### **Interest on the Securities**

As the Issuer of the Securities is not a ROC statutory tax withholder, there is no ROC withholding tax on the interest or deemed interest to be paid on the Securities.

ROC corporate holders must include the interest or deemed interest receivable under the Securities as part of their taxable income and pay income tax at a flat rate of 20 per cent. (unless the total taxable income for a fiscal year is NT\$120,000 or under), as they are subject to income tax on their worldwide income on an accrual basis. The alternative minimum tax (**AMT**) is not applicable.

### **Sale of the Securities**

In general, the sale of corporate bonds or financial bonds is subject to 0.1 per cent. securities transaction tax (**STT**) on the transaction price. However, Article 2-1 of the Securities Transaction Tax Act prescribes that STT will cease to be levied on the sale of corporate bonds and financial bonds from 1 January 2010 to 31 December 2026. Therefore, the sale of the Securities will be exempt from STT if the sale is conducted on or before 31 December 2026. Starting from 1 January 2027, any sale of the Securities will be subject to STT at 0.1 per cent. of the transaction price, unless otherwise provided by the tax laws that may be in force at that time.

Capital gains generated from the sale of bonds are exempt from income tax. Accordingly, ROC corporate holders are not subject to income tax on any capital gains generated from the sale of the Securities. However, ROC corporate holders should include the capital gains in calculating their basic income for the purpose of calculating their AMT. If the amount of the AMT exceeds the annual income tax calculated pursuant to the AMT Act, the excess becomes the ROC corporate holders' AMT payable. Capital losses, if any, incurred by such holders could be carried over 5 years to offset against capital gains of the same category of income for the purposes of calculating their AMT.

## **ROC SETTLEMENT AND TRADING**

In order to purchase the Securities, except for any investor who has an account with Euroclear or Clearstream, Luxembourg and intends to settle the Securities through such account with Euroclear or Clearstream, Luxembourg, an investor must have a securities book-entry account with a Taiwan securities broker and a foreign currency deposit account with a Taiwan bank, and settle the Securities through the account of Taiwan Depository & Clearing Corporation (**TDCC**) with Euroclear or Clearstream, Luxembourg.

For persons seeking to hold a beneficial interest in the Securities through TDCC, such persons will hold their interest through an account opened and held by TDCC with Euroclear or Clearstream, Luxembourg (as the case may be).

Initial subscription of the Securities by ROC investors will be settled directly through Euroclear or Clearstream, Luxembourg or through the account of TDCC with Euroclear or Clearstream, Luxembourg. TDCC will forthwith allocate the respective Securities position to the securities book-entry account

designated by each initial investor with TDCC. Due to time difference, allocation of the Securities to TDCC accounts is expected to be on the second Taiwanese Business Day after the Issue Date. The Securities will be traded and settled pursuant to the applicable rules and operating procedures of TDCC and TPEX as domestic bonds.

A ROC investor having its own account with Euroclear or Clearstream, Luxembourg may settle the Securities through such account with Euroclear or Clearstream, Luxembourg (without applying with TDCC to transfer the Securities to the TDCC account), or apply with TDCC, by filing in prescribed form, to transfer the Securities in its own account with Euroclear, or Clearstream, Luxembourg to the TDCC account with Euroclear or Clearstream, Luxembourg for trading in the domestic market or vice versa for trading in overseas market.

Distributions of principal and/or interest for the Securities to ROC holders will be made by payment services banks whose systems are connected to TDCC to the foreign currency deposit accounts of the ROC holders. Such payment is expected to be made on the second Taiwanese Business Day following TDCC's receipt of such payment (due to time difference, the payment is expected to be received by TDCC one Taiwanese Business Day after the distribution date). However, when the ROC holders will actually receive such distributions may vary depending upon the daily operations of the Taiwan banks with which the holder has the foreign currency deposit account.
